BY-LAWS BEING DRAFTED FOR REGIONAL PLANNING

The Mississippi-Louisiana Regional Planning Commission is being proposed as the official title for a bi-state agency created this year.

The proposed title is suggested in by-laws drawn up Monday night by a regional planning commission by-laws committee in a meeting at the National Aeronautics and Space Administration's Mississippi Test Operation information center in Hancock County.

The proposed by-laws will be presented to the full commission for approval at a Nov. 24 meeting in Bay St. Louis.

Joe Colson of Waveland, commission chairman, presided at the committee meeting, also attended by members Robert D. Ladner of Pearl River County, Ed Randle of St. Tammany Parish, La., and Milton B. E. Hill of Harrison County.

Robert Daley of the Mississippi Agricultural and Industrial Board planning department and B. U. Jones and Bill Mabry of MTO were interested observers.

The proposed by-laws were drawn up within the framework of Mississippi House Bill 520 which created the regional planning group embracing Harrison, Hancock and Pearl River counties in Mississippi and St. Tammany Parish, La.

The counties are those most affected by the impact of Mississippi Test Operations.

Visiting hours at the hospital were discussed and the Auxiliary is asking everyone to cooperate with the hospital by not visiting in the morning as it interferes with care of the patient at that time, doctor's visits, etc. Visiting hours are from 2:30 to 4:30 p. m. and 6:30 to 8:30 p. m.

EXCELLENT TURNOUT AT WAVELAND JAYCEE BICYCLE PROGRAM

Jaycees ask Bay St. Louis parents why the Jaycees were thrilled with a record turnout of 63 children for their Bicycle Safety Program Saturday at Waveland School for all Waveland children. This Saturday the program moves to Gulfview School for all Lake shore and Clermont Harbor children.

Jaycee president, Lee Choppin, asks Bay St. Louis parents why such a poor turnout by their children. The program conducted at North Bay, Valena C. Jones and S. J. Ingram schools had a total of only 54 children. However, at only one location in Waveland 63 children participated.

Choppin stated that each program was promoted in bulk-mail letters, the Daily Herald, radio and in each school. This should have reached all parents. The Jaycees did not expect children to attend unless something appealed to them. Therefore the Jaycees purchased 15 bicycle accessories, Pepsi Cola and popcorn for each program. These were given to the children free. In addition to bicycle safety films, a Walt Disney cartoon was included, and reflective tape was placed on their bicycles.

Joe Kersanac, chairman of the project said that 54 children from all of Bay St. Louis is not enough. Therefore, the project will be repeated for the fourth time in Bay St. Louis, Saturday, Nov. 21, S. J. Ingram School, 2:00 p. m. The Jaycees hope Bay St. Louis parents will be interested in their children's safety at that time.

Mrs. J. W. Clark was elected president of the Hancock County Federation of Church Women at Friday's annual meeting at the Baptist Church.

Others named to office were Mrs. Edwin Ling, first vice president; Mrs. Tony Seaford, second vice president; Mrs. Paul Vegas, recording secretary; Mrs. Silas Hennessey, corresponding secretary; and Mrs. W. R. Plican, treasurer.

Rev. Robert Pittmann of the Canal Street Presbyterian Church, New Orleans, was guest speaker. Mrs. John Landon announced a bus will take passengers to the Canal Street Presbyterian Church Saturday at the site of the Christian Life forum which is being conducted at this time.

The bus will leave the Episcopal school at 5 p. m. Anyone interested in going can contact Mrs. Landon.

Escaped Prisoner Still At Large

A prisoner being returned to Ocala, Fla., by a Marion County, Florida, sheriff and his deputy escaped at Trailway Truck Cafe, U. S. Highway 90, about four miles west of Bay St. Louis about 7:30 p. m. Sunday.

Sheriff Sylvan Ladner said a search was conducted for the 23-year old man, who was being returned from Los Angeles, Calif., to face auto theft charges.

According to Ladner, Sheriff Douglas Willis and his deputy, L. D. Turner, had gotten out of their car at Trailway Truck Stop to eat with Robert Shishock.

The prisoner went into the rest room guarded by deputy Turner, who remained outside of the door. The deputy was unaware that there were two doors in the room, one leading into an adjoining bunk house.

Shishock opened the door and made his escape by removing a panel of a jalousie window.

Shishock was described by Sheriff Ladner as six feet, two inches tall, weighing about 170 pounds, with light bushy hair and a moustache. He was wearing dark levis, low quartered boot tip shoes, black sweater with white trim and a white shirt.

Assisting in the initial search were Pkayune police officers Weston Loft and Bounds with a bloodhound; Canine officers Gariga and Patton and dogs from the Gulfport police department; Hancock County Sheriff Ladner, Chief Deputy Eido Depree and deputies Raoul Teliard, Chester Favre, Fred Curet, Tommy Bourgeois and Nolan Kingston; City police Chief L. A. Garris and police officers Robert Goodsell and Paul Egloff; Waveland Town Marshal Fred Bourgeois and deputy Gerald Price Jr.; Pearl River County Sheriff J. P. Walker; W. E. Faulk, State Highway Inspector for this district and Highway Patrolmen Joe Mars, Leon Button, Jimmy Favis, Wayne McMurry, T. G. Greer, Parker and Pat Toomey, Game and Fish Warden.

Local voters will go to the polls Tuesday, November 24, to decide on issuance of \$1,183,000 in revenue bonds earmarked for construction of a new high school for students of the Bay St. Louis Waveland and outside area (outside area consisting of Edwardsville and Arlington centers). Also plans are earmarked for the addition to Waveland Elementary, Valena C. Jones School and dressing room facilities at Tiger Stadium.

The ultra-modern new structure is proposed for a site just off of Highway 90 on Blue Meadow Road. Here the School District owns 20 acres of land for said building to be constructed on.

Composed of hexagon shaped brick structures, the High School education plant is patterned after the most successful school construction to be found in the nation today.

The Bay St. Louis Parent-Teacher Association recently adopted, with no dissenting votes, a motion to endorse construction of the new High School and other facilities. The motion came after Superintendent J. D. McCullough discussed the need for the proposed new facility and outlined basic drawings for the group of all added facilities.

According to McCullough, the School Board has been studying designs for several years, with full knowledge that the city would be faced with construction of a new plant before 1965. McCullough discussed several trips made by the School Board to study facilities of other school plants.

Besides a well rounded curriculum, the new high school plans include facilities for a well rounded physical education program. According to McCullough, the physical education program has suffered somewhat due to lack of facilities in both Elementary and High School.

"We have been forced to suggest gym activities among the students to a point that is alarming for such an important phase of high school training," McCullough continued.

He expressed appreciation for the general acceptance, so far, of the board's school building program. McCullough said he had visited several civic clubs to outline the program, and the response, he said, had been very gratifying.

LABOR UNITE AT STANTO

STANTON, MISS. - An attempt has been reached by all parties involved in a labor dispute at the National Aeronautics and Space Administration's Mississippi Test Operation.

NASA Labor Relations Director, made the announcement.

Settlement was signed by National Labor Relations Board, Local 624 Operating Engineers Union, and NASA.

Settlement began when about 100 members of the Operating Engineers Union struck all construction work at the rocket testing facility because of a grievance over the company's substitution of the Leavelle-Kiewit firm for the rocket testing.

Settlement, Local 624 predicted time for the strike to end in violation of the National Labor Relations Act.

Continuation of the strike would have seriously affected millions of dollars worth of construction on all three test stands and other supporting facilities under way at the site.

A "Consent Decree" will be filed in the Fifth Circuit Court of Appeals in New Orleans by the NLRB after Board approval to enforce the settlement.

The \$250 million rocket testing facility now under development will be used to test the first and second stages of the giant Saturn V Apollo moon rocket. It is a division of the George C. Marshall Space Flight Center in Huntsville, Alabama.

FREEDOM'S DISCOVERY

There is joy in giving to God. That is freedom's ultimate discovery. And the hundreds of thousands of churches which we have built and supported bear testimony to the fact.

But when there are nations who despise God... who tear down churches... or forbid their support, how shall we teach this Christian joy to the boys and girls who will be our nation—tomorrow?

Karen and Paul are placing Sunday School "envelopes" at the foot of the children's altar.

Of course, what Karen and Paul and their classmates can give will hardly pay for an altar. But our world of tomorrow cannot be built on Kremlin economics.

A mighty generation must learn to worship in prayer and faith and sacri-
fice. There is joy in giving to God!

Our children learn this chiefly from our example and encouragement.

THE CHURCH FOR ALL - ALL FOR THE CHURCH
The Church is the greatest factor on earth for the building of character and good citizenship. It is a place of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four good reasons why every person should attend services regu-
larly and support the Church. They are: (1) For his own sake, (2) For his children's sake, (3) For the sake of his community and nation, (4) For the sake of the Church itself, which needs his moral and material support. This is so for church members and non-members alike.

Q. What are other systems over the State doing about their school needs?

A. School systems in our neighboring county and town, as well as other school districts over the state and nation, are financing rather significant construction programs.

Q. What will the Expansion Program consist of?

A. The expansion program would include the following:

1. HIGH SCHOOL

A. A complete high school building in the amount of \$1,046,199 to be erected on the 20 acre Blue Meadow Road site just off Highway 90, now owned by the city school system. This would consist of and include 27 classrooms, gymnasium, auditorium, lunchroom, vocational training building and library, and provide necessary water, light, heating and sewerage facilities for said school building.

2. VALENA C. JONES

A. The enlarging of Valena C. Jones School building in the amount of \$72,910 by erecting, constructing and equipping of three new classrooms, a stage in the gymnasium and a modern Science Laboratory, with equipment for same, and providing the necessary water, light, heating and sewerage facilities.

3. WAVELAND ELEMENTARY SCHOOL

A. The erecting, construction and equipping of two new modern classrooms as an addition to Waveland School in the amount of \$17,000 and providing for the necessary water, light, heating, and sewerage facilities. More classrooms will be added at this center when there are ample students living in Waveland District to justify such. State Department of Education allocates elementary classrooms on a 30 to 35 pupil basis per classroom. At present we have 222 students in Waveland District, which calls for six classrooms. Grades taught at this center will be 1-6 grades rather than 1-4. All students from 7-12 grades will have an opportunity of attending the Bay St. Louis Jr. High School and the new Bay St. Louis High School under proposal.

4. DRESSING ROOM FACILITIES

A. The erecting, constructing and equipping of a stadium dressing room building and storage in the amount of \$33,900 to be used by both Jr. High and High School P. E. classes for both our school system and visiting teams from other schools. Said building to be located on the west end of the stadium owned by the school district which is located in the rear of the North Bay Elementary School.

Legal fees both National, State and Local plus advertising and other costs in the amount of \$12,991.

The millage rate of increase will not be more than 7½ and perhaps 6 mills for the first year said the commission members, and decrease each year thereafter. This means that taxpayers will pay the first year an additional 75c for each \$100.00 of assessed valuation of their property. For example, the owner of a home with an assessed value of \$500.00 will pay an extra 43.75 the first year and less each year thereafter.

Any further information pertaining to the above proposed building program can be obtained by calling the city council, the school board of trustees, or the superintendent of city schools, HO-7-6621.
